

Stem Cell Isolation Workshop 2007

Date: 12 September 2007, 10.00am – 4.30pm

Venue: Biopolis

Instructors	Andrea Goh, Paul Wong												
Abstract of workshop	Miltenyi Biotec's Stem Cell Isolation Workshop is a full-day training course designed to instruct participants on the practical aspects of the use of stem cells in basic research. The objective of this introductory workshop is for participants to acquire basic knowledge and skills in isolating human stem cells in basic research studies.
